• Dutch (native language)
• English (fluent in speaking and writing)
• German (moderate in speaking and
writing)

MAIN OPERATING SYSTEM

Linux (Ubuntu)

ACTIVITIES

2010

Top 25 of the Dutch Informatica
Olympiade contest (a national Computer
Science contest).

INTERESTS

Music (saxophone) • Tennis
Travelling • Cooking

EXPERIENCE

CERN | INTERNSHIP

June 2016 - August 2016 | Geneva, Switzerland

- I did a research project in which I evaluated Apache Flink, a distributed data processing framework.
- I participated in a poster session and I learned how to give presentation for different audiences.
- Collaborating with students and scientists all over the world.
- During the internship I worked for approximately 8 hours per day.

KIDUP | SOFTWARE DEVELOPER

June 2015 - June 2016 | Aarhus, Denmark

- A start-up marketplace for kids toys in Denmark.
- Improved the system such that it is maintainable for a team of software developers.
- I worked for approximately 8 hours per week and learned how to program using Yii.

OVOWEB | OWNER AND SOFTWARE DEVELOPER

December 2012 – Now | Lent, Netherlands

- Worked on various software related projects for several companies.
- I learned how to communicate efficiently and I learned about marketing.
- I worked for approximately 4 hours per week and learned about Node.js and React.

TUXX | SOFTWARE DEVELOPER

September 2010 – Now | Heijen, Netherlands

- A well known Business-to-Business online platform in the Netherlands.
- Developed a responsive and international version of an already existing information system.
- Made the existing information system maintainable for a team of international software developers.
- I worked for approximately 5 hours per week and learned about PHP and a few related frameworks.

EDUCATION

DATA SCIENCE (MASTER) | RADBOD UNIVERSITY

September 2015 - Expected June 2017

I am learning the newest technologies and research related to Data Science and how to effectively solve Data Science related problems.

SOFTWARE SCIENCE | EINDHOVEN UNIVERSITY OF TECHNOLOGY

September 2012 - July 2015

I learned how to write documents according to the ESA (European Space Agency) standard, how to collaborate efficiently and I learned how translate a problem into a Software project.

COMPUTER SCIENCE | DELFT UNIVERSITY OF TECHNOLOGY

September 2011 - July 2012

I participated in the Computer Science program. The program had a lack of mathematics and therefore I decided to move to Eindhoven.
